Report of Board of Education.

To the Inhabitants of the Town of Danville :

The Board of Education submits the following report for the year ending August 1, 1900.

We believe it is your desire to have every scholar receive the greatest possible good from our schools, and to this end it has been our endeavor to have the pupils attend a larger part of the school year, and nearer the limit of school age than was formerly the practice, and we are pleased to note an improvement in this respect.

We look for the cooperation of parents in securing still better attendance, for it is your children who are to receive the benefit.

The schools have all been in the charge of competent teachers, and the work has been good.

Harmony has prevailed with the exception of a little friction at the Center during the summer term, which upon investigation was found to be due to the parents.

In this connection, we suggest that any having grievances, either real or fancied, should come to the School Board, where they will receive an impartial hearing.

Since last year, we have added a fourth year to the course at the Grammar School.

We hope that as many as possible will complete the course, and all such will receive a diploma, as will others in the ungraded schools who do the same amount of work.

Roll of Perfect Attendance.
